

The logo features a large, stylized blue 'F' shape that serves as a background for the text. The 'F' is composed of a vertical bar and a horizontal bar, both with rounded ends. The background is a solid olive green color. The text 'Fyne Vision' is written in a white, sans-serif font, centered horizontally and partially overlaid by the horizontal bar of the 'F'.

# Fyne Vision

To be the best toolkit  
for developing beautiful,  
native graphical applications  
across all platforms.

# Why?

- Building cross platform graphical applications can be complicated, slow and difficult to test.
- We will redefine GUI development, making it easy to learn, intuitive and simple to achieve high test coverage.
- Fyne user interfaces can be deployed to any graphical devices with a single code base.

# In 3 years

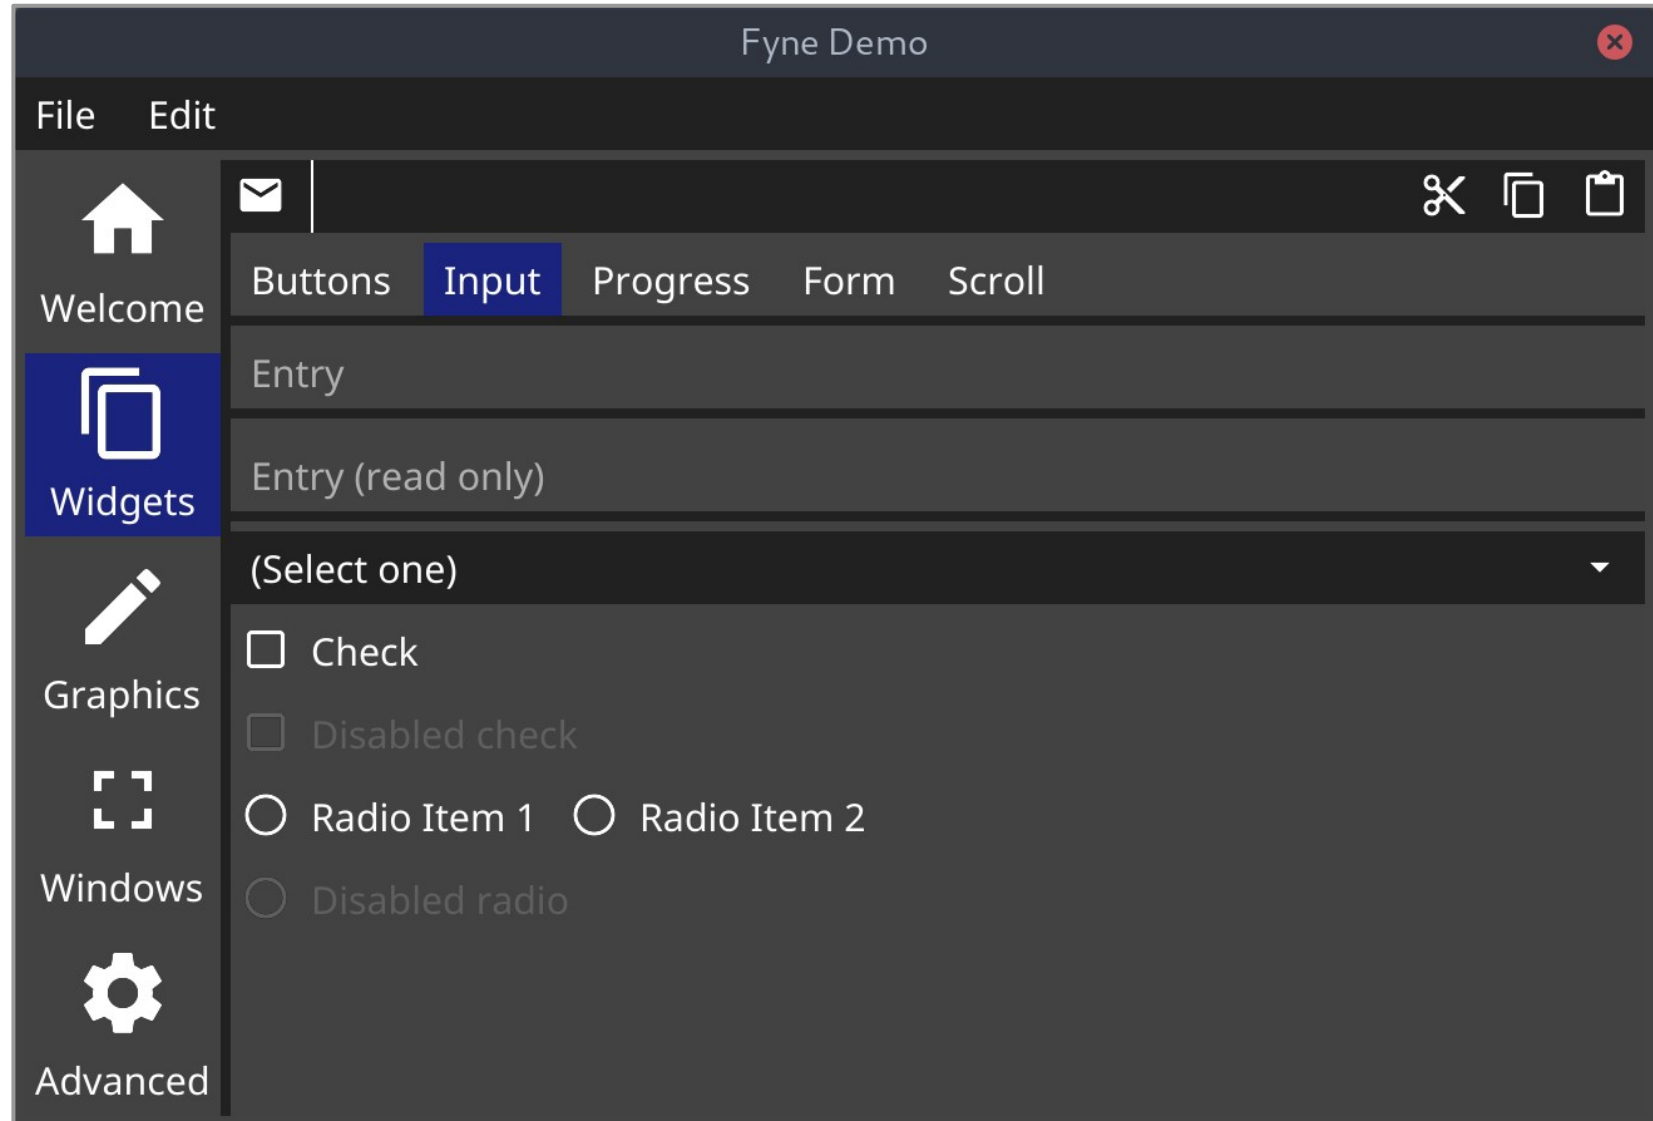

- To become the new standard for native graphical application development.
- With IDE plugins, WYSIWYG editors and supporting services apps developed will work seamlessly across all popular devices.

# 6 months

- Release APIs for desktop and mobile app delivery on a single codebase
- App configuration and data to be synchronised across all devices
- Delivery of applications through a cross platform app store
